Course Code: CSEG1044

School of Computer Science

Submitted By

Student Name: Suryansh Mishra

SAP ID: 590012069

Course: B.Tech CSE (Core)

Semester: 4

Batch: 4

Academic Year: 2025-26

Submitted To

Mr. PiyushBagla

2.1. Write a Java program to input two numbers and perform four arithmetic operations using command line arguments.

```
//input two numbers as command line arguments and perform basic arithmetic operations

package experiment2;

public class experiment21 {

   public static void main(String[] args) {

      System.out.println("Suryansh Mishra 590012069");

      int num1 = Integer.parseInt(args[0]);

      int num2 = Integer.parseInt(args[1]);

      System.out.println("Addition: " + (num1 + num2));

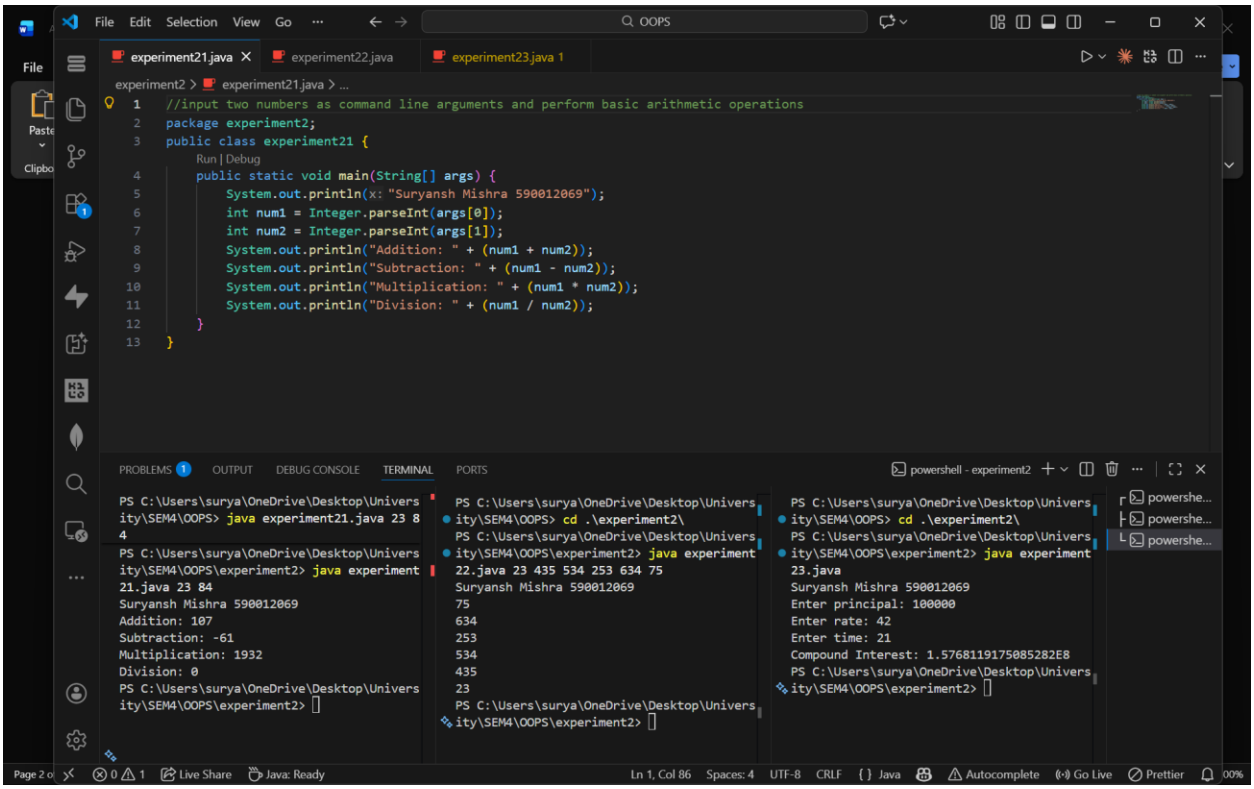
      System.out.println("Subtraction: " + (num1 - num2));

      System.out.println("Multiplication: " + (num1 * num2));

      System.out.println("Division: " + (num1 / num2));

   }

}
```



2.2. Write a Java program to input n numbers using command line arguments and print them in reverse order.

```
//input numbers and print reversal of them

package experiment2;

public class experiment22 {

  public static void main(String[] args) {

    System.out.println("Suryansh Mishra 590012069");

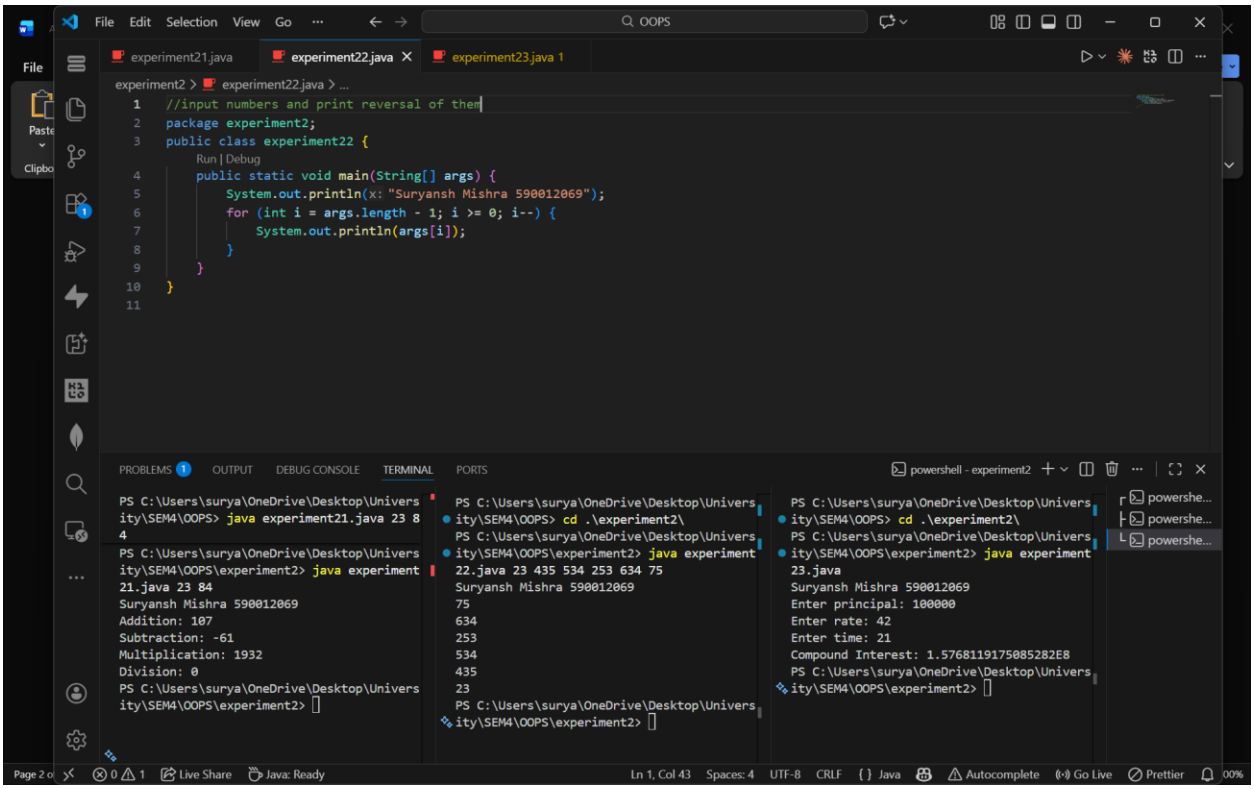
    for (int i = args.length - 1; i >= 0; i--) {

      System.out.println(args[i]);

    }

  }

}
```



2.3. Write a java program to calculate compund intereset. Take required inputs using Scanner class.

```
//input principal, rate, time and print compound interest

package experiment2;

import java.util.Scanner;

public class experiment23 {

  public static void main(String[] args) {

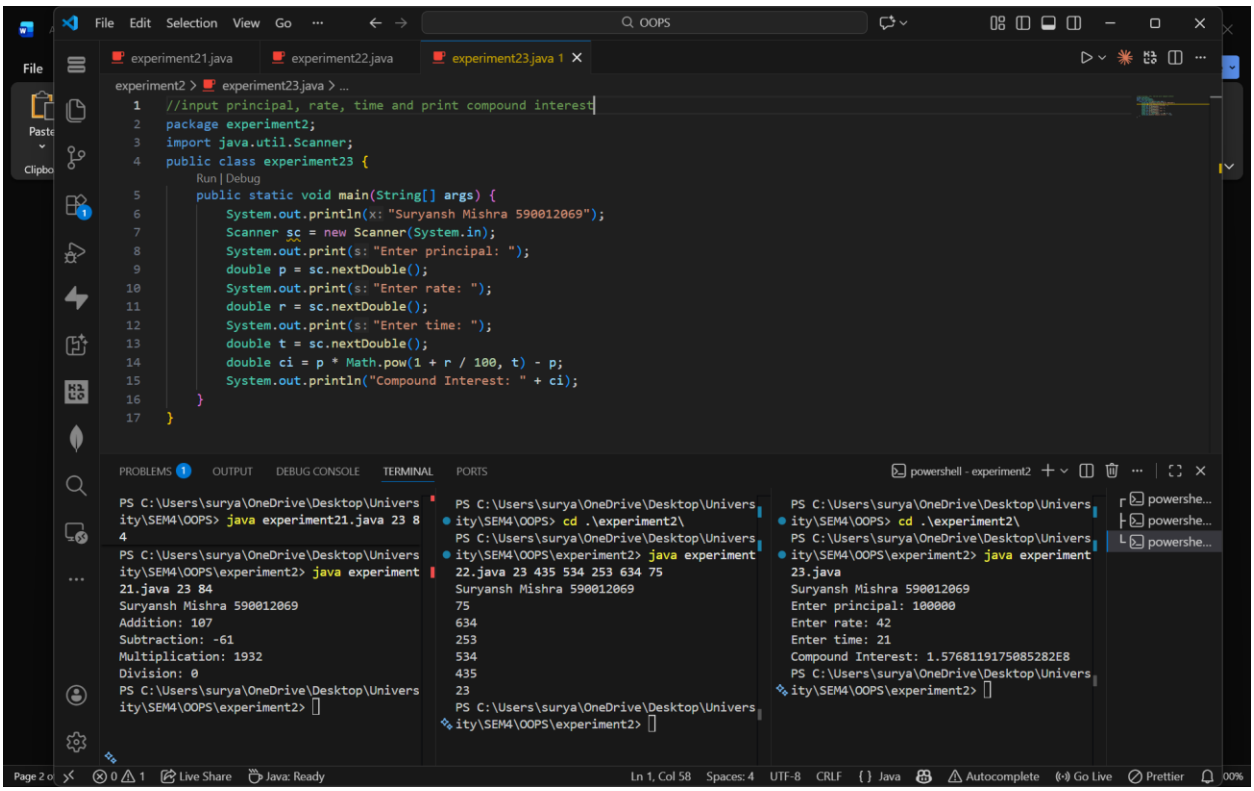
    System.out.println("Suryansh Mishra 590012069");

    Scanner sc = new Scanner(System.in);

    System.out.print("Enter principal: ");

    double p = sc.nextDouble();

    System.out.print("Enter rate: ");

    double r = sc.nextDouble();
```


```
        System.out.print("Enter time: ");
        double t = sc.nextDouble();
        double ci = p * Math.pow(1 + r / 100, t) - p;
        System.out.println("Compound Interest: " + ci);
    }
}
```
